-Many Buddhists believe, as written in the Tibetan Book of the Dead, that the soul takes 49 days between death and rebirth in the reincarnation process. Friends or family are supposed to read the Book of the Dead to the recently deceased for 49 days. Amazingly, it is also 49 days from conception when an embryo undergoes major changes to become a fetus. At 49 days, two very important things happen: (1) the newly formed pineal gland produces a giant spurt of DMT and (2) the gender of the baby is decided. Could this be the moment of reincarnation?
