

“The Truth About Vaccines”

Vaccinating children is a very controversial topic these days but Ty Bollinger wants to clear the air. He is the host of an upcoming video series titled “The Truth About Vaccines” where he will discuss the history of vaccines, vaccine risks and safety concerns, and the full list of options and alternatives. Here’s an excerpt from the video series page:

“I Just Want Them To Be Safe”

We can all agree there’s nothing more important than the health and safety of our children...

Parents should be informed about both the benefits and the risks associated with vaccines — without pressure, propaganda, or agenda.

*So we brought together more than 60 of the world’s foremost health experts to investigate **both** sides of this contentious debate to give you the science, the history, and the untold story... the REAL information you need to make an informed decision on how to best protect your child.*

The Truth About Vaccines is a 7-episode documentary series that airs starting April 12 - 19:
