

2013 Playbook: US Plan to Launch Chemical Attacks and Blame it on ASSAD

Source: Jim Stone - <http://82.221.129.208/baaasepagen4.html>

It is time to call him out on this. **Trump has tried to do a lot of good. For the most part, he has done very good things. But the bad cannot be ignored, when the bad is THIS BAD: TWO HUGE FAILURES.**

FIRST FAILURE:

He has failed to protect the alternative media by not cracking down on google, Facebook, Reddit, Youtube and others.

GOOGLE: By doing nothing as Google used monopoly status to kill advertising to perfectly legitimate alt news outlets, Trump has basically ensured the death of his true base. Fox news is not his true base, and even if it was, it is borderline criminal to simply allow Google to use monopoly powers to kill alternative views. **Additionally, Trump has done nothing to stop Google from censoring alt media in an attempt to kill it off.**

Maybe Trump is not tech saavy enough to realize that simply typing a web site address into Google and having Google give you that site, (which you obviously already know about) is not a test of censorship, and instead, to prove censorship you have to do topic searches and have topics turn up web sites when they should. If it won't do that, it is censoring.

FACEBOOK: Trump simply sat there and did nothing as Facebook put in place artificial intelligence to wipe out his support base. Now Facebook is a dead zone, and Trump was too stupid to realize that there is such a thing as a false flag news outlet that can be set up to show openness (I am sure Facebook allows Jew critical content) but it has to be a sanitized version that looks crazy and brainless. No one in the elite class is afraid of "crazy and brainless" and it seems more and more that any "dissent" you are allowed to see can be classed as that. Ditto for Google. Ditto for Reddit.

Youtube: Youtube is wiping great content left and right in the name of "combating hate". But censoring while "combating hate" is a classic soviet / Bolshevik tactic and if you don't know enough about history to know that, you are going to be severely hampered when put in charge of something like a nation.

Trump's support base will be killed off, because Trump allowed it to be killed off

If Trump does not break up Google, Facebook, Youtube, Twitter, and others and make them the subject of anti trust laws, and basic "live and let live" rules of the road, he's going to have no one to serve, and no votes again, EVER. He rode the wings of the alt media into power, and is now doing nothing to help it in a very real war to destroy it. **THIS CONSTITUTES A MAJOR FAILURE, HIS FIRST FAILURE.**

The second failure: Falling into neocon hands, and cranking up the war machine. SEE THE SYRIA COVERAGE FOR DETAILS, Trump violated ALL LAW by attacking Syria. And he did it for idiotic and totally unfounded reasons. My God, he's supposed to be the president, NOT the second place contestant in a 10th grade civics class!

One of my old captures from 2013 is making the rounds

This is getting circulated now, and it is interesting to say the least.

The original capture had the entire report but the top portion says it all:

U.S. 'backed plan to launch chemical weapon attack on Syria and blame it on Assad's regime'

- Leaked emails from defense contractor refers to chemical weapons saying 'the idea is approved by Washington'
- Obama issued warning to Syrian president Bashar al-Assad last month that use of chemical warfare was 'totally unacceptable'

Leaked emails have allegedly proved that the White House gave the green light to a chemical weapons attack in Syria that could be blamed on Assad's regime and in turn, spur international military action in the devastated country.

A report released on Monday contains an email exchange between two senior officials at British-based contractor Britam Defence where a scheme 'approved by Washington' is outlined explaining that Qatar would fund rebel forces in Syria to use chemical weapons.

Barack Obama made it clear to Syrian president Bashar al-Assad last month that the U.S. would not tolerate Syria using chemical weapons against its own people.

Almost completely destroyed??!!??

Drudge has a headline up about the syrian air base being "almost completely destroyed". Here is the damage: Six Mig 23 fighters that were being serviced. Some hangar damage. A radar knocked out. A storage area gone. No damage to the runway. No airplane that was not under repair destroyed. 60 missiles fired. 23 hit their targets. Not impressive. It almost seems like the attack started as it was planned, but then the cruise missiles got jammed. Now Russia is going to quickly replace everything lost, and deliver upgrades.

Trump had better deliver when it comes to Americans on American soil, because as far as I see it, this attack basically destroyed him abroad.

According to a poll on Drudge, 65 percent agree with Trump's strike on Assad?

I don't believe it. The poll is probably manipulated. If that many people do agree, I don't know what to say.

Syria shot down an Israeli jet (leading up to this)

Israel won't admit it, but last week Syria shot down an Israeli jet after Iran sent techs to Syria to reset "friend or foe" codes in the Syrian missile systems.

Iran discovered that it's S-300 missile systems were recognizing enemy aircraft as "friendly" and refusing to engage. So somehow they got hacked, or Israel got the codes to spoof being friendly. After Iran successfully assisted Syria in resetting it's friend or foe codes, (this may not have been limited to the S-300) Syria succeeded in shooting down an Israeli jet.

SO A FAKE GAS ATTACK WAS STAGED, AS A PRETEXT FOR A CRUISE MISSILE STRIKE ON SYRIA.

And a 23 / 60 hit rate proves the Tomahawk is OUTDATED OVER PRICED CRAP. Come on now, the Tomahawk is 80's tech that made it's debut in the early 90's. WHAT ON EARTH is it still around for? Obviously GPS jamming is enough to take it out if only 23 hit!

HERE IS THE KREMLINS STATEMENT ABOUT TRUMP'S ATTACK ON SYRIA

This does not look good!

Comment from the Press Service of the President of Russia

April 7, 2017 09:00

The President of Russia regards the US airstrikes on Syria as an act of aggression against a sovereign state delivered in violation of international law under a far-fetched pretext. The Syrian Army has no chemical weapons. The fact of the destruction of all Syrian chemical weapons' stockpiles has been recorded and verified by the OPCW, a specialised UN body. Vladimir Putin believes that complete disregard for factual information about the use by terrorists of chemical weapons drastically aggravates the situation.

This move by Washington [the US airstrike on an air base in Syria] has dealt a serious blow to Russian-US relations, which are already in a poor state. Most importantly, this move will not bring us closer to the ultimate goal of combatting international terrorism but will instead create a major obstacle to the establishment of an international counterterrorist coalition and to effective struggle against this global evil, something that US President Donald Trump declared as one of his main goals during his election campaign.

Vladimir Putin regards the US strikes on Syria as an attempt to draw public attention away from the numerous civilian casualties in Iraq.

On Friday, the United States launched Tomahawk cruise missiles at an air base in Homs Province in western Syria.

Opinion on Stockholm

I am not going to look into the latest "truck attack" because the timing is too convenient and it is probably, if it is even real (and it probably is not real) but if it is real it was done to distract from the attack on Syria.

Donald Trump believed the chemical attack in Syria??!!?? WHAT AN IDIOT!!!

Trump is on MexTV right now talking all about how Assad led the chemical attack. Anyone with a brain knows Assad did not. This means that Trump might have such a serious flaw he's not qualified for the job. **So they analyzed Trump, found his weakness, and he's now nothing but a pawn that can be tossed about. I GIVE UP.**

Trump has attacked Syria.

Dozens of cruise missiles. Thank you Jared Kushner for using Trump as a door mat for Israel. So it seems we can't ever get what we ask for, because kikedom studies weaknesses and can exploit ANYONE. I'd like to see them try to exploit David Duke.

I'd say it is game over, Trump is like WHAT, 100 DAYS IN and he has already started a war??!!?? I don't think it matters that much that he did it because he has been manipulated when even if he's stupid about it while being a good guy the outcome is the same.

The claim is that the cruise missile attack took out a chemical weapons plant that was located at an airbase. But with Israel and other liars providing the intelligence how do we know it was?

THOUGHT: MAYBE THIS WAS A VEILED RESPONSE TO THE SHOOT DOWN OF THAT JET YESTERDAY. PROBLEM: Assad did not do that either!

Syria has now condemned the attacks, but [The militants are thrilled, and asked for more!](#) That ought to say it all, Trump screwed up.

Evidently, Trump ordered the attacks himself, with no approval from Congress. The claim is that if you act quickly and without warning it is far more effective.

Now that Syria has lost so much air defense and radars, Israel is probably going to go in and clean up.

TRUMP'S SPEECH

"My fellow Americans, on Tuesday Syrian dictator Bashar al-Assad launched a horrible chemical weapons attack on innocent civilians.

Using a deadly nerve agent, Assad choked out the lives of helpless men, women and children. It was a slow and brutal death for so many. Even beautiful babies were cruelly murdered in this very barbaric attack. No child of God should ever suffer such horror.

Tonight I ordered a targeted military strike on the airfield in Syria from where the chemical attack was launched. It is in this vital national security interest of the United States to prevent and deter the spread and use of deadly chemical weapons. There can be no dispute that Syria

used banned chemical weapons, violated its obligations under the Chemical Weapons Convention and ignored the urging of the U.N. Security Council.

Years of previous attempts at changing Assad's behavior have all failed and failed very dramatically. As a result the refugee crisis continues to deepen and the region continues to destabilize, threatening the United States and its allies.

Tonight I call on all civilized nations to join us in seeking to end the slaughter and bloodshed in Syria and also to end terrorism of all kinds and all types.

We ask for God's wisdom as we face the challenge of our very troubled world. We pray for the lives of the wounded and for the souls of those who have passed, and we hope that as long as America stands for justice, then peace and harmony will in the end prevail. Good night, and God bless America and the entire world. Thank you."

MY RESPONSE: How could you be that stupid? Kushner probably directed the chemical attacks, along with McCain and Bush! That is a HELL OF A LOT more likely than Assad! The bad guys *including even your former media enemies* are now rejoicing! What's next? A cruise missile attack on Bushehr? I have lost hope!

Trump really might have a critical flaw that makes him unfit for the job. If he's that stupid about false flags and can be pushed this quickly into action that is in no way proven justified, it could really screw us! On top of that, America was never attacked, which is a prerequisite for this kind of action and Trump did it anyway, without the approval of Congress! **I am sorely disappointed!**
