New York City is a place of rich history and innovative spirit. At 525, we embrace that spirit while planting ourselves deep in the roots of that history.

Perfectly poised at the nexus of the vibrant Hell's Kitchen neighborhood, 525 is surrounded by established centers of culture, commerce, and social activity such as Hudson River Park, the Theater District, Times Square, and Hudson Yards.

Thoughtfully designed by Handel Architects, our brick façade and warm, industrially-inspired environment pay homage to the factories that once stood here while our amenities and unparalleled level of service epitomize the best of modern conveniences. This is a place that honors soul and substance, and values connecting and integrating with the community it calls home.
