

Harald Kautz Vella and Production of BaTiO₃ Powder

<https://www.youtube.com/watch?v=YiGL2GUoOvI&feature=youtu.be&t=10m10s>

Starting at 10 minutes into the video and ending at minute 16:00

A Gathering Of Momentum Part 9" Harald Kautz Vella Shayne Benatter - **Harald Kautz Vella confirms method of producing aerosols of Eu-Doped BaTiO₃ Powder by spraying compound into jet exhaust.**

It's not in the fuel additives. The compound is sprayed into the exhaust where temps between 750 to 600 deg act to create the Eu-Doped BaTiO₃ Powder.

Eu-Doped BaTiO₃ Powder and Film from Sol-Gel Process with Polyvinylpyrrolidone Additive
