Running Time: 1:07:28

Description: Indira Singh explains about Ptech, the company with numerous investors and managers with direct links to terrorist financing. Ptech's clients included the CIA, FBI, the White House, the Department of Energy, the Air Force, the Navy, the FAA, IBM and Enron... Yet Singh learnt they were a CIA front company and their software could gain control of the most sensitive computer systems in the country.

Bush Family Ties to Terror Suspects Re-opened by the 9/11 Classified "28 Pages"

Of special interest to independent researchers is the failure of the nation's air defenses on 9/11, and the reliance of these defenses on the company formerly known as Ptech, which was founded with [funding partly from Saudi financiers](#) with ties to designated terrorist organizations. Ptech employed a mix of foreign nationals and Americans with ties to Israeli software companies with possible links to Israeli Mossad. Now renamed Go Agile, Ptech is a purveyor of software which is critical to the security of major software systems embedded throughout the FAA and the US Department of Defense.
