Issued by: Collier Exposed Investigations

Classification: Public Continuity Record / Emergency Fallback Sheet

Revision: v7.4

Date: 25 October 2025

Purpose: To provide a verifiable and indestructible record of the **Collier Exposed** public investigation into the life, actions, and legacy of **Stuart Collier** — a former figure within Rupert Murdoch's tabloid network — and to ensure its survival and accessibility should principal platforms or distribution channels be suppressed, seized, or taken offline.

1. PROJECT OVERVIEW

Collier Exposed is an independent public investigation documenting the depravity of Murdoch's gutter press and the sadistic deeds of **Stuart Collier** — a now-deceased *News of the World* operative whose legacy intertwines with harassment, fabrication, blackmail, and direct complicity in criminal corruption.

The project operates as a **decentralised, resilient publication network**. Its materials are archived across multiple permanent repositories and mirror domains to withstand censorship and takedown efforts. This record serves as the **definitive statement of continuity** for the investigation.

2. INVESTIGATIVE OBJECTIVE

The **Collier Exposed** project exists to document and expose the full extent of **Stuart Collier's** professional misconduct and criminal associations, particularly his activities under Murdoch's *News of the World*. **Stuart Collier's** career reflects the **institutional rot** of a tabloid system that weaponised journalism as a means of coercion and control.

4. INVESTIGATIVE TARGET SUMMARY

Stuart Collier, a tabloid enforcer for Rupert Murdoch's *News of the World*, engaged in acts of **cruelty, deceit, and corruption** that blurred the line between journalism and organised criminality. His career intersected with multiple scandals and crimes, including the **1987 murder of private investigator Daniel Morgan**, the **Guppygate scandal of 1990**, and **widespread abuses of power** within Fleet Street.
