

## **Coupon for online shops**

### [Digital Coupon System](#)

"What can I do to attract more people to visit my online shop? It seems that people just skip the online commercials."

### [Mobile Coupon App](#)

"Yes, they do skip commercials online, just as you do. To attract them, you need to offer something which is really in their interest. You may try Mezzofy Merchant, which is an app allowing you to create and issue your own online coupons. Coupons can always work but in the online world you need a digital one. You may use the digital coupons to offer discount, bonus or any attractions and allow them to share and spread in the online world."

"That sounds great. But can I redeem it online?"

"Of course, you can redeem it online or in the real world, just as you wish. You can even use them as redemption coupons to collect money or deposit online. You may download Mezzofy Merchant direct from App Store or Google Play right now. You can also visit Mezzofy's website at <http://www.mezzofy.com/index.html> for more details."
