Richard Harrington Interview

Richard Harrington

<http://richardsnewsonline.com> Blog

I am a web page designer and news reporter

What do you see as the biggest changes in your industry?

Because I have added social media with the news I believe people around the world will start waking up to what is going on around them

How will these changes impact the public?

Knowledge is powerful and the truth is powerful Together they can help change our world for the better

What are your biggest goals?

Waking People up to the truth about what is going on in their world. The people have been lied to long enough. Its time for the people to stand up and say enough is enough and i'm not going to take it anymore.

Who and what do you need to reach your goals fast?

Mainstream media is on its way out. Alternative Media is winning the information war.

I need as many people as I can get to share ProNews with others. The faster Alternative News sites spread across the internet ETC, The faster we ALL can reach our goals

Who should contact you and why?

Anyone that has the heart for truth and is willing to share it. Anyone who is not afraid to stand up against tyranny.

Anyone who wants to help make a positive change in society.

Anyone that wants to help wake up the sleeping giant (The People)

its up to us together to make change for the better We have to stop counting on the governments to do it, we have seen their outcome and it is not for the people but for the elite.

Thank you and do reshare my blog post in your Twitter and Facebook!
