

SAP Certified Application Associate - SAP HANA 2.0 (SPS03) C_HANAIMP_15 Certification Description

The "SAP Certified Application Associate - SAP HANA 2.0 (SPS03)" certification exam verifies that the candidate possesses the required knowledge in the area of the SAP HANA 2.0 based on SPS03 for the profile of an SAP HANA application consultant for SAP HANA modelers.

This certificate builds on the basic knowledge gained through related SAP HANA training (HA100, HA300, HA301) and preferably refined by practical experience within an SAP HANA project team, whereby the consultant applies acquired knowledge in this specialist area practically in projects.

Notes

To ensure success, SAP recommends combining education courses and hands-on experience to prepare for your certification exam as questions will test your ability to apply the knowledge you have gained in training.

You are not allowed to use any reference materials during the certification test (no access to online documentation or to any SAP system).

Each specific certification incorporates its very own set of preparation tactics. We define them as "Topic Areas" and they is found on each exam description. You will find the volume of questions, the amount of the exam, what areas you will end up tested on, and recommended course work and content you are able to reference.

Certification exams might contain unscored items that are now being tested for upcoming releases from the exam. These unscored merchandise is randomly distributed over the certification topics and are not counted towards final score. The complete number of items of an examination as advertised in the Training Shop is never exceeded when unscored backpacks are used.
