

# Top 9 Reasons to Buy Smart TV box Android this Holiday Season

With the all-new **smart TV box android**, there is scope for unlimited enjoyment. This technology allows you to stream unlimited services. The best part is you do not have to purchase a smart television; the only thing you have to do is connect an Android TV box to the HDMI port available. You can easily connect your computer with an Android TV for a full-on entertainment experience.

This article will tell you more about the same. So, let just begin:

1. **Full-on media centre:** You have the power to convert your computer screen into a fully-fledged media centre and this can be achieved through [Kodi](#), an open-source media and a great entertainment platform that will visibly convert your system into a grand entertainment box. Moreover, with this app, you will be able to stream videos, short clips, reels, etc from the media storage of your system as well as through the internet.
2. **Playbox HD:** This is the newest alternative for movie boxes or popcorn TV and is not available on the Google play store so you need to manually install it on your device. No sooner than you install this on your system, you will be able to unlock the hidden potential of your Android TV with hi-fi sound and picture quality.

3. **Access Netflix:** This OTT platform is famous for its choices of web series and movies in multiple languages. However, you do not have to browse on your laptop anymore. With Android TV, you can conveniently play your fab movies, newest web series on it with your designated Netflix account on your system at the same subscription price. What's more, you're able to watch great pictures & sound quality without spending a penny extra on revived Netflix subscription.
4. **Access social media:** Well, you heard that right! When an Android box is connected you can easily access all of your social media accounts like Facebook, INSTAGRAM, LINKEDIN, in a single click. The new [android smart TV box](#) gives you an out of the world experience.
5. **Conversations with loved ones:** With an Android TV box, you could easily message, video call your loved ones, friends with ease that also on the big screen. Apart from making video conferencing calls with it, you could take normal calls with friends and family easily.
6. **Full-on wireless:** With a television, you cannot connect a wireless keyboard or mouse. But with an Android TV, it is possible and you can binge on your favourite match as well as video conference with friends.
7. **Access YT:** Apart from OTTs, you can easily connect with YouTube, watching amazing video clips, the newest movie trailers, Korean movies and even a plethora of web series.
8. **A multitude of games:** With an Android TV box connected you can conveniently play your favourite games with undying speed. The only thing you have to do that is install your favourite games on the system and start playing. And with the Android TV box connected, you can easily play with multiplayer. Moreover, you can easily connect with a gaming pad for a great thrill and adventure.
9. **Browse News:** One can download the popular apps of news channels on the system and browse through news channels at your comfort. With Android TV box it gives you the comfort of entertainment through television but at a very high quality and features.
