Buy Beretta 92 FS

<https://calibreamoury.com/?product=buy-beretta-92-fs>

The reason is that it was [designed—and has kept evolving—to](#) be and remain the most accurate, durable, and reliable semiauto handgun on the market.

Easy to use, absolutely safe, and delivering [impressive firepower](#), it remains the sidearm of the US military and allied forces the world over, as well as of countless police and law-enforcement agencies. Buy Beretta 92 FS.

The 92FS is a double/single-action [semiauto pistol](#) that employs an open-slide, short-recoil delayed locking-block system, which yields a faster cycle time and delivers exceptional accuracy and reliability.

In particular, the open-slide design practically eliminates “stove-piping” and helps flawless cycling and feeding even after thousands and thousands of rounds.

The recently-renewed contract with the US military speaks clearly: when it comes to dependability even in some of the world’s most extreme conditions, the Beretta 92FS still has no match. Period. Buy Beretta 92 FS.

Regardless of the wonderful reputation, it may have, the true test of a tactical pistol’s worth is at the shooting range.

The 92FS consistently bests the US military requirement of a 10-shot group of 3” or less at 50 meters (just short of 55 yards). While this type of match-grade accuracy is impressive, it is no magic.

At Beretta, we know that absolutely precise tolerances keep performance consistent shot after shot—which not only gives the 92FS its extraordinary accuracy, but it makes all factory parts interchangeable within the same model.

Couple this with the ability to reliably feed every variety of commercial ammunition, and it is easy to understand why the 92FS remains the best pistol in its class.
