Iconic Pet's Double Door Crate is excellent for training your puppy or dog. These crates are made of heavy duty wire gauge and include two doors, divider panel with ABS plastic or metal pan on the bottom. Double door design allows easy access from front & side ways. Side door allows flexibility so the pets's home can be placed in the most convenient location. This bottom removable pan makes it easy to clean. The divider confines your puppy to a smaller area for training, while they are growing, and allows you to adjust the space as your puppy grows. Iconic Pet's crates are designed with your dogs utmost safety, security and comfort in mind. Corners are rounded for ultimate safety.
