DebugLog

Running - OS: Windows, Chrome: 77.0.3865.120, Configurator: 1.2.0

Last used port wasn't saved "yet", auto-select disabled.

PortHandler - Found: COM9

Connecting to: COM9

SERIAL: Connection opened with ID: 1, Baud: 115200

Serial port successfully opened with ID: 1

MultiWii API version received - 1.43.0

Flight controller info, identifier: BTFL, version: 4.2.5

Running firmware released on: Nov 22 2020 18:38:23

Board: S405, version: 0

Unique device ID received - 0x4d00523436510c30333337

sending cmd_InterfaceExit 0 0

received cmd_InterfaceExit ACK_OK 0 0

SERIAL: Connection with ID: 1 closed, Sent: 186 bytes, Received: 329 bytes

Connecting to: COM9

SERIAL: Connection opened with ID: 2, Baud: 115200

Serial port successfully opened with ID: 2

MultiWii API version received - 1.43.0

Flight controller info, identifier: BTFL, version: 4.2.5

Running firmware released on: Nov 22 2020 18:38:23

Board: S405, version: 0

Unique device ID received - 0x4d00523436510c30333337
