

How to play big smoke with disposable electronic cigarettes

Now many friends are using electronic cigarettes to play smoke ring tricks, so do you know how to play big smoke with [disposable electronic vape](#). Come check it out!

Empty your lungs, take lung suction (different from the general smoking method of inhaling the smoke into the mouth first and then swallowing it into the lungs, directly inhaling the smoke into the lungs, similar to the inhalation method in deep breathing), quickly inhale the smoke and Spit out.

The average player inhalation time is 4-5 seconds, if you can inhale up to 7 seconds, it will be a guarantee of big smoke. But pay attention to safety, because the smoke fills your lungs at this time, so you must spit it out in time, otherwise it may be dangerous.
