Vastu Shastra is a divine science that we have used since ancient times to plan and build our homes, institutions, workplaces, and cities. Vastu Shastra is concerned with assessing the energy of a location, including the soil and surroundings, and then collaborating with the people who will live or work there to design the structure so that it is a positive, profitable, and

happy place to be. Blessings Astrology is headed by Dr. Surabhi Bhatnagar, an eminent and international astrologer, who provides **Vastu Consultant Services** based in India. For more information visit our website: www.blessingsastrology.com/vastu-shastra-service
