Sheshi

Sheshi is a disruptive FinTech startup, bringing in Automation and Artificial Intelligence to the field of Financial Reporting & Analytics. Sheshi is launching its first product in this space which automates the financial reporting. The product easily integrates with many accounting and bookkeeping applications, enables automatic ledger classification, prepare iGAAP compliant financial reports, and download well designed annual reports. All this in a secure cloud platform. Our products will bring a revolution in FinTech and enable & empower finance professionals with a suite of products for Financial Analytics & Reporting.
