

Ofloxacin Syrup Manufacturer Suppliers in India || Kevlar Healthcare

Kevlar Healthcare is the leading <u>ofloxacin syrup manufacturer & suppliers in India</u>, with more than 14 years of experience in the pharma industry. We are known for manufacturing the finest range of ofloxacin syrup and providing it to several pharma companies in India. This syrup is used to treat bacterial and parasitic infections. Ofloxacin belongs to the quinolone antibiotic class. It works by preventing germs from self-repairing and, hence, from growing. Also, this syrup is used to treat gastrointestinal disorders such as severe diarrhea or dysentery, as well as gynecological infections, lung infections, and urinary tract infections.
