

# Virtual, Hybrid and Experimental events agency in India

A [virtual and hybrid corporate event](#) is an online event that involves people interacting in a virtual environment on the web, instead of meeting in a physical location. Virtual and hybrid events are typically multi-session online events that typically feature webinars and webcasts. Advances in technology event planning have become smarter to work virtually, from home, coffee, office to work globally and flexibly. Virtual event organizers can also refer to aspects of an event that are brought to users through an online experience. This can range from live streaming of the online event to creating video-on-demand content for users to view after completing the online event management.
