How to download from Putlocker and Sockshare

The steps are actually really simple, I know it may seem like alot but it really isn't. It's super easy.

1. You go to the Putlocker page of the video you want to download, click the "Continue as free user" button and there you will right click and select "View page source" (if it asks you to reconfirm or whatever, just refresh and click continue).

2. You will be taken to a page that has alot of html code. Just search (by using ctrl+f or command+f) **get_file**

3. Select the whole line, without quotes " " and copy it. Like this...

get_file.php?
stream=WyJNVmcxVTBoSVZZEaFBWMVkwUTA4ME5Eb3hNell3T0RneU1EazVMakUzT0RjNk
9UVmtZMkZpWlRjM056VmtNb
U5qWm1Kak5EZGlaakZQzTlRGak16UXlNV1kyWldIdNM016azRNUT09IiwicmVyIl0=

4. On your address bar type: http://putlocker.com/**paste-what-you-copied-here** and hit enter.

It will now give you a link that looks kind of like this:

FehJ3DcjU0g==/sleeping.beauty.1959.platin
um.edition.dvdrip.xvid_imagineers.flv

5. Super long, I know... Just copy that and paste it on your address bar, replacing the **.flv** at the end with **.mp4**
Hit enter and it will begin to download.

That's it!!
