

## How to choose a spring soft mattress?

A good spring soft mattress will make our sleep worse, because the spring soft mattress is more likely to affect the companion. So what are the tips for buying a mattress? [custom mattress factory](#). Let's take a look at it together.

1. Choose a well-known mattress, and do not buy a mattress without a trademark, factory name, factory address, or certificate.
2. The fabric of the soft mattress should be quilted with the same tightness, no obvious wrinkles, no floating lines and jumpers; the seam edges and four corners arcs are symmetrical, there is no burr, and the dental floss is straight.
3. The pattern and color of the soft mattress fabric should be coordinated with the bed frame. Everyone likes beautiful things, and they all look comfortable and tasteful.
4. The seam should be straight, the four corners should be even and symmetrical, and no burrs, broken threads or skipped stitches should be exposed. When purchasing a mattress, observe the stitches around the mattress.
