

School data management system

A [cloud-based ERP solution](#) from **AINRAED** has been offered to streamline all of your time-consuming institutional procedures. Everything in your school is managed and tracked using this. We assist organisations in streamlining and automating their daily operations so they can concentrate more on their operations and the institution's expansion.

Numerous modules, including those for managing admissions, fees, transportation, personnel, attendance, exams, and much more, are available through us. With **AINRAED**, everything from school car tracking to preparing exam reports, admissions, and attendance can be done instantly and conveniently. Your questions and concerns are important to our **AINRAED** support team, who is dedicated to helping you.
