Time Tracking Software for Remote Employees

A STEP-BY-STEP GUIDE FOR MANAGING LEAVE FOR REMOTE WORKERS

STEP 1

1. Create and document your policy

Employees may be more flexible with their schedules if they work from home, which can benefit your organization. It does, however, necessitate a higher level of confidence and verification. .

STEP 2

2. Communicate your policy

Include your policy in your employee handbook without a doubt. Make the new policy known and make it simple for your personnel to evaluate it.

STEP 3

3. Use PTO tracking software

Automated timekeeping with PTO tracking is a must. Especially if PTO increases with

tenure or hours worked. Certainly, calculating it with spreadsheets is difficult. Many small businesses turn to Excel spreadsheets for PTO. Managers enter attendance data into spreadsheets.

STEP 4

4.Apply the policy consistently

Ascertain that supervisors are aware that all requests must be approved equitably. Take necessary action if you detect management favoring one employee over another. Other workers will notice, and it will not be pleasant.
