Report Chapters

Chapter 01 – Executive Summary

The report gives a brief with the executive summary of the automated sortation system market, which includes a summary of the key findings and statistics of the market. It also includes the demand & supply-side trends pertaining to the automated sortation system market.

Chapter 02 – Market Overview

In this chapter, readers can find the definition and a detailed taxonomy of the automated sortation system market, which will help them understand the basic information about the automated sortation system market. Along with this, comprehensive information about automated sortation system is provided in this section. This section also highlights the inclusions and exclusions, which help readers understand the scope of the automated sortation system market report.

Chapter 03 – Key Trend

The chapter reveals key trend shaping the automated sortation system market growth.

Chapter 04 – Key Success Factors

This section includes key successful factors and strategies adopted by key market participants.

Chapter 05 – Primary Analysis

This section includes primary survey analysis conducted with system integrators, manufacturers, and supplier along with the key insights provided by them.

Chapter 06 – Global Automated Sortation System Market Volume Analysis 2015-2019 & Opportunity Assessment 2020-2030

This section also explains the global market volume analysis and forecast for the automated sortation system market in the forecast period of 2020-2030.

Chapter 07 – Pricing Analysis

Pricing analysis of the Automated Sortation System market at the regional level has been provided in this section.

Chapter 08 – Global Automated Sortation System Market Demand Analysis 2015-2019 & Opportunity Assessment 2020-2030

This section explains the global market value analysis and forecast for the automated sortation system market for the forecast period of 2020-2030. This chapter includes a detailed analysis of the historical automated sortation system market, along with an opportunity analysis for the

future. Readers can also find the absolute \$ opportunity for the current year (2019), and incremental \$ opportunity for the forecast period.

Chapter 09 – Market Background

This chapter explains key macroeconomic factors that are expected to influence the growth of the automated sortation system market over the forecast period. Along with the macroeconomic factors, this section also highlights supply chain, forecast factors, and value chain analysis for the automated sortation system market. Moreover, in-depth information about the market dynamics and their impact analysis on the market have been provided in the successive section.

Chapter 10 – Global Automated Sortation System Market Analysis 2015-2019 & Opportunity Assessment 2020-2030 by Equipment Type

This chapter provides details about the automated sortation system market on the basis of Equipment type and has been classified by pop-up roller & arb sorter, pivoting arm & paddle sorter, tilt-tray sorter, cross belt sorter, pouch/ pocket sorter, sliding shoe sorter, narrow belt sorter, flat sorter, and push tray sorter
