

Heated Clothing

How Vinmori [Heated Clothing](#) works?

Using a universal USB 5V [battery technology](#), [Vinmori](#) allows you to conveniently charge your mobile device as well as heat your garments. These revolutionary [garments](#) feature built-in heating panels made with carbon fiber and metal that provides lightweight warmth, comfort, and versatility.

Far Infrared is a Therapeutic Heat that heats users from the inside out. It penetrates skin to gently elevate body [temperature](#). F.I.R Rays are also very safe and do not cause sunburn or damage to skin (not to be confused with UV Light). Infrared [Heat Therapy](#) has been known to help with better blood circulation, Arthritis, [healing](#) and other therapeutic purposes.
