

## Italian Call Center Services (Bilingual)

Italians adore their language and are more at ease with those who speak it. Despite their natural warmth and friendliness, they find it challenging to socialize when they are required to speak a language other than their own. A corporation must therefore offer its clients the services of an Italian call center if it intends to conduct substantial business in Italian-speaking nations or grow its current operations there. We at [LiveSalesman](#) are proud to provide top-notch, round-the-clock outsourced Italian Call Center and Customer Support Services, made possible by our agents who are native Italian speakers. We provide Italian call center services for Customer Support in Italian, Italian Sales Support, Italian Social Media Management, Support, Upsell and Cross-sell, Order Management, Technical Support, Retention, Answering Phone Calls in Italian, Fraud Prevention & Chargeback Management, among other things.
