

Apple watch bracelet

Online store IROOCCA offers you to buy straps and bracelets for Apple Watch smart watches. Here you will find a large selection of leather, silicone, metal and nylon straps for all Apple Watch models.

In order to choose a strap for Apple Watch, you need:

Choose Apple Watch screen size.

Apple's watch line is represented by two sizes of cases: 38 mm and 42 mm screen diagonal. Accordingly, the straps and mount for them are different, and choosing an accessory for Apple Watch, you need to take this into account. The screen diagonal is 38 mm, the more compact model is Watch, women choose it more often, because of this, the straps, on these models - delicate shades and sophisticated design. The larger model, namely 42 mm, is popular with men, the accessories for them are mostly dark shades and with a concise and strict design. But, in any case, when choosing Apple Watch? it is advisable to try them on in the store, and depending on the size of the car, choose the appropriate size for the watch.

2. Select the type of strap.

Our online store has a huge selection of straps and bracelets for Apple Watch for every taste. All accessories for Apple Watch are genuine and original products of well-known world brands - Baseus, COTetCI, iBacks, Incipio, Incase, Apple, etc. All of them are certified by Apple, which means that they are perfect for your Apple Watch and will last a very long time. Come on, let's rip out what straps for the Apple Watch exist:

silicone straps

These are the most practical and simple bracelets for Apple Watch. They are made of hypoallergenic, recycled plastic. Straps can be used in any conditions, they are not afraid of water or sand. As a rule, these straps for Apple Watch come with a watch. They have a wide range of colors, so anyone will find their own style.

leather classic straps
