

# Israeli Kalergi Plan

Have you been dismayed as to why there's been a push for open borders, the White genocide in South Africa, phoney muslim 'refugees' (mainly young males --not women & children) to be spread around the globe --except for in other islamic countries, insistence that we and European countries need migrant workers, an effort to demean & undermine Whites & the middle class, the push for sanctuary cities, the creation of the EU, the push for abortions, a porous US border, and much more? Well. I believe this gives us the answer to most of what we've been trying to figure out. Please take the time to read all of these, and do your own search for information. When you do, please post back. I'd love to hear your thoughts on this sinister plan.

“The man of the future will be a mongrel. The races and classes of today will gradually disappear due to the elimination of space, time, and prejudice. The Eurasian-negroid race of the future, similar in appearance to the Ancient Egyptians, will replace the diversity of peoples and the diversity of individuals.” --Richard Coudenhove-Kalergi, “Practical Idealism”, 1924

Kalergi Four Main Concepts:

- 1) Multiculturalism
- 2) The collapsing of individual nation states
- 3) Total European integration
- 4) World government by the New World Order

The Coudenhove-Kalergi Plan: White Genocide Via Mass Immigration:

Count Richard Nikolaus von Coudenhove-Kalergi (herein Coudenhove-Kalergi) was born in 1894 in Japan, of a Count and Austro-Hungarian diplomat (Heinrich), and Mitsuko Aoyama (daughter of a major landowner and very wealthy family in Japan). He took Czechoslovakian residency from 1919, then French nationality from 1939 to his death in 1972. He was also a member of the Jewish Masonic, the B’Nai B’Rith.

Through his fathers extensive diplomatic contacts, his wealth, and his aristocratic ties to numerous powerful families (and their networks) – Coudenhove-Kalergi started a movement away from the spotlight of the public, but which gained massive and overwhelming support from the pawnbrokers of the time. This Pan-European Movement. Via his association with the Rothschild family, Coudenhove-Kalergi was introduced eventually to the Warburgs, a powerful American banking family who bankrolled the Pan-Europa to the tune of 60,000 marks (a fortune at the time).

In essence the Pan-Europa envisioned a New World Order leading to eventual One World Government, but installed in stages and over long periods of time to avoid scrutiny and the inevitable protest of the general public. The process was to be one of “Regionalisation”, where there would be 5 or 6 massive superstates, of which a European Union would be the prototype. The main purpose of the Superstates would be to centralise powers away from sovereign governments and undermine notions of democracy in the name of the ‘greater good’. To follow – American, Asian, African Unions – something the CFR (Council on Foreign Relations) – a shadowy group with massive influence and no oversight or transparency (much like the Bilderberg Group, Trilateral Commission and others) – picked up on in their policy papers which drive US and United Nations agendas.

This is the idea that to create an EU superstate, the will of the people has to be diluted, subverted or destroyed. This is to be done slowly and incrementally. A ratchet of many small steps to disarm the public, each step – like a ratchet – cannot be reversed. Each step – proposed as a solution to some ‘other’ issue (trade, fishing, defence) – seems reasonable enough that it can overcome objections and be implemented. The movement is inexorably from A through Z. But the totality of the steps (destination Z) is never revealed, for the people would never agree to it.

Not an analogy Coudenhove-Kalergi uses, of course – but I liken it to boiling a frog in a pot of water. Thrown into boiling water – the frog reacts instinctively and for self preservation will jump out. But place him in a pot of cold water and very slowly bring to the boil, the frog will die and never jump out – at least when he realises, he will be too weakened and incapable.

More importantly – Coudenhove-Kalergi saw this as a project which would be led by European and American aristocrats and influential families, and ‘organised Jewry’ from the shadows, manipulating the political processes which lead to it.

The best way to achieve this is mass uncontrolled immigration, to homogenise the population and erode the power of national, ethnic or religious identity. The resulting masses will be busy infighting (ethnic strife and poverty) to resist creeping totalitarianism, and over time, a more

mixed populace will be more malleable and therefore controllable, and a new 'European' identity will emerge. There is also an element of Eugenics (a theory very popular with the aristocracy and academia of the time) – people like Coudenhove-Kalergi believed that a mongrel race would be degenerate and stupid, therefore more controllable – whereas he specifically cites the interbreeding of the Jewish race as one of the reasons why they are superior.

The infighting also feeds into the Hegelian Dialectic (problem-reaction-solution) – because it distracts the public from what the Elites are doing as puppet-masters, and they can achieve various aims by presenting 'solutions' to the conflict dynamics they are setting up. In short – a mass of migrants sets up the opportunity to create Hegelian Dialectic trigger points to push the general population any direction the Elites want them to go.

A few examples:

Want to bring in enhanced surveillance and police powers, martial law, redraft Constitutions, bring in integrated EU secret service and intelligence sharing, EU Army etc? fine – lets's have another Paris massacre (or, more to the point, allow such an already planned event to take place to garner political capital from it).

Want to silence and marginalise anti-EU and anti-immigration sentiment? plant saboteurs in their marches, to create violence, then get the media to spin it to malign dissenting political views by caricaturing them as Nazis.

Want to clamp down on political criticism? create new Hate Crimes, threaten to take children of parents, threaten public shaming, pay Antifa protesters to cause trouble, bring in new censorship laws to control social media, etc – all sold to the public in the name of 'combating extremism' and 'promoting tolerance' and 'humanitarianism'.

It is quite clear that vast wealth and privilege, Coudenhove-Kalergi's own mixed race heritage and lack of national and cultural identity coloured all his views.

Like any person with a healthy ego, so wealthy he did not need to work but wanting to bring meaning to his life, he sought to rationalise all these factors (mixed national identity, race and culture) – into positives. I have read his dreary 'Practical Idealism', and it is pseudo-intellectual, ideological garbage – yet it has fundamentally shaped EU politics for generations. He went so far as to turn his own 'identity issues' into an 'idealism' and a virtue in and of itself: in essence, Coudenhove-Kalergi is one of the founders of Multiculturalism as a de facto religion. He was also a committed hardcore socialist, so like all Far Left, his views tended towards dogmatic beliefs that must be enforced on others 'for their own good', and because

they are not enlightened, they do not even need to know let alone be consulted about such matters....
