

# Where Are One of the best Book Lists For Doctors?

The Doctors Bookshelf is all about recommending books which all doctors ought to learn. It has a concentrate on matters equivalent to affected person security, human factors, management, determination making, creativity, and innovation. The scope is nonetheless wide, from bench to bedside, from classroom to boardroom. The Bookshelf Sections are therefore fairly various.

The books I review are mostly self-discovered but I am always on the look out for worthy book suggestions. [top medical books in india](#) explains my foray into BMJ Book recommendations which resulted in my first fiction e-book assessment, Cutting for Stone. Who else is on the market recommending books for docs? Here is what I found.

## Medscape

I used to be impressed, and overwhelmed, by the ebook lists on Medscape. The books are introduced in effectively-made slide shows, and there are wonderful but transient snap-pictures of what the books are about. And the icing on the cake, the lists are up to date annually. Check out these lists for a taster:
