In a recent presentation to 300 School Resource Officers and Principals put on by the Justice Department's COPS program, **Wolfgang Halbig, Executive Director of NISWS**, asked the audience: "How do you know how or what to spend the money on if you don't first determine what your problems are? Accountability and getting the best bang for the buck are the keys to a well executed Safe School Plan, and reducing the negligence liability of the school district."

May 17 2001: “Workshop will focus on school safety report”

An article published in the **Gainesville Sun** observes the National Institute for School and Workplace Safety in middle of transitioning to the second step of Halbig's school safety strategy: In Alachua County, **NISWS** conducted a “safety audit,” and found abundant security lapses. Now, after the inspection’s “safety report” has identified deficiencies /opportunities at the county’s schools, the “workshop” suggests solutions offered by NISWS.

In a follow-up from the Gainesville Sun, Halbig is consultant to Ron Davis with the **National Institute for School and Workplace Safety (NISWS)**. Davis/Halbig find serious safety concerns at six campuses, for which they recommend extensive safety training for teams of teachers. Also, name tags.

## National School Safety Expert: Sandy Hook Shooting Was A Staged Event

Source: <https://phibetaiota.net/2016/06/mongoose-sandy-hook-false-flag-summary-from-national-school-safety-expert-wolfgang-halbig/>

Wolfgang Halbig has the perfect combination of expertise to evaluate what happened at Sandy Hook Elementary School:

- **law enforcement:** Florida State Trooper, US Customs Agent.
- **education:** teacher, assistant principal, principal.
- **current school safety expert:** trained key personnel at over 4,000 US school districts, and over 3,500 school safety officers.

His conclusion after ten months of motivated investigation:

*"In my professional opinion, [Sandy Hook was] a scripted event... in planning for maybe two, two and a half years."*

Mr. Halbig's response is demand for criminal arrests of "leaders" involved in Sandy Hook based on rational embrace of the public evidence he explains in the interview:

- law enforcement parked 1/4 mile away upon arrival. Why didn't they rush to a heart-wrenching emergency if it really occurred?
- no trauma helicopters were ordered. This is unheard of for an actual emergency.
- no paramedics were allowed in the school. This is unheard of.
- officials refuse to say who declared all 26 people dead. By law, this must come from a doctor. This refusal of so much basic information indicates lies and cover-ups.
- official narrative claims emergency personnel didn't find the school secretary and nurse after 4 hours of searching.
- this "event" included a traffic sign lit with the message, "everyone must sign in." Officials refuse any comment on this element that would be present for a staged event/drill.
- porta potties were on site; again with no comment by officials and consistent with holding a staged event.
- no names were listed for the 26 children and chorus director at the 2013 Super Bowl event in honor of Sandy Hook. The [children resemble the alleged shooting victims](#). It's unimaginable to not list these names for such a huge deal.
- no lawsuits filed by parents for negligence against school district. This is unheard of.
- a shooter with Aspergers would have poor motor skills and muscle tone – how did he carry all the gear and shoot with such precision? This combination is impossible to imagine.
- 2 homicide investigators threatened Mr. Halbig for making inquiries consistent with his professional duties to learn about this event for future school safety.
- Newtown Public Schools won't return any calls. Mr. Halbig says this non-cooperation to contribute information for other schools' safety is unheard of.
- the FBI classified the report on Sandy Hook. This has never been done before, and indicates a cover-up of all the evidence that this was a staged event.
- radio transmissions are consistent in tone and content for a drill, not an actual emergency.

- multiple weapons reported at a limited crime scene were never found. This is not credible.
- law enforcement sent a kindergarten girl from the hall to stay at the crime scene of room 8 to be alone with dead bodies. This is a ridiculous claim that demands investigation and answers.
- no parents viewed the bodies of their children. This is also unheard of.
- no documents are being released via Freedom of Information Act requests. This is unheard of.
- trauma services were never requested. This would never occur.
- tearing down the school is consistent with destruction of evidence, given the HUGE gaps between official accounts and the evidence.
- there's zero evidence that a bio-hazard company was contacted to clean blood, bodily fluids, and officials refuse comment. This is impossible.
- Mr. Halbig's inquiries of who installed the school security system has been met with silence. This is unheard of to not get this information to improve other schools.

***Mr. Halbig has the professional expertise to conclude the official story is impossible, and to demand arrests in order for the public to have the truth.***

**Phi Beta Iota:** The official penchant for false flag operations as a budget-building exercise and as a means of furthering the Obama Administrations efforts to create a police state and confiscate all guns (never mind the 2nd Amendment of the US Constitution) has peaked with Orlando, where the number of skeptical reporters out-numbered the Mainstream Media (MSM) reporters under contract and doubt some form of non-disclosure agreement as well. If the Trump team will bear down and expose all of this treason — and insist that Hillary Clinton and Bill Clinton be properly investigated and indicted for wire fraud and direct bribery — there is a window for democracy. Even better would be an Electoral Reform Act of 2016 before the summer recess — treason in the Executive thrives under a two-party tyranny that is captive to Wall Street and unable to execute its Article 1 responsibility under the US Constitution.

## **Sandy Hook: Halbig's Research Yields Hard Evidence:**

[\[VIDEO\]](#) In this brief video excerpt from Wolfgang Halbig's FOI hearing on June 3, 2015 in Danbury, Newtown First Selectman Patricia Llodra states that the "Everyone Must Check In"

sign prominently displayed outside the Sandy Hook Elementary School grounds on December 14, 2012 and thereafter was placed there by the Department of Homeland Security.

“There’s a flashing sign that says, ‘Everyone must check in,’ but the town didn’t put it there. Who do you think put it there?” Halbig’s attorney L. Kay Wilson asked. “I think Homeland Security put it there,” Llodra responded.

“Everyone must check in” is a command to all personnel involved in a specific coordinated exercise. This is an amazing admission from Newtown’s top official, particularly since it suggests what many Sandy Hook researchers have suspected for over two years—that the “Sandy Hook massacre” was a DHS/FEMA-orchestrated drill sold to the American public as a genuine event.

**On April 26, 2012, 8 months before the alleged massacre, Dean Foods prepared an invoice of an order from Sandy Hook Elementary School for “American/Continental” style cuisine. Strangely, the food was to be sent not to SHES’s address at 12 Dickinson Drive, Sandy Hook, CT 06482, but to the address of Chalk Hill Middle School at 375 Fan Hill Rd., Monroe, CT.**
