

Reliable Vinyl Fencing Products

Best Fencing Products

How can every website say they have the best product and the lowest price guaranteed? Someone would have to be stretching the truth, no? Let us educate you as to the differences in vinyl Fencing, Turf, Decking, also check out our own independent test of vinyl fence that's on the market today.

We will also show you how vinyl can:
improve the resale price of your house
improve the look and curb appeal of your home, which is so important
save you time,
help you keep your money in your pocket
keep your carbon footprint small
Even if you just have a question about vinyl fencing, email us! We will be happy to answer your questions.

So many companies out there are just trying to sell you a product, they have forgotten how to educate and to listen to their customers. Let us prove to you our value!

OK Vinyl Products was the first Canadian fabricator to join the Vinyl Manufacturer's Association (VMA)!

The reason why: In the last 15 years we've noticed the influx of inferior vinyl making it's way into North America. This highly inferior vinyl gives all vinyl a bad name and we firmly believe the VMA is the only way to ensure the survival of a quality product. The primary purpose of this important association is to provide assurance to the contractor and the home owner that the vinyl extrusions they are purchasing, from an accredited manufacturer, are produced to the quality levels as written in the VMA standards. Click on the logo below for more information about these essential standards.

OK Vinyl Fencing Products was established in 2001 by owners Garvin & Brad Jones, a father and son team. Garvin and Brad both come from a construction background having operated a barge and large equipment company on the Big Rideau in Ontario. They now apply their hard working ethics to fencing projects.
