

## Collect Family Moments On A Trip Not Things

Today I am going to share my best moments with my family. I was a kid that time when my parents decided to travel to a beautiful and very unique destination to enjoy the vacations. So, my dad decided to travel to Australia and explore this country.

He planned to spend 3 months there so that we can enjoy each and every place. Mom was also very excited and happy. Dad booked [United Airlines Tickets](#) to get our seats reserved and also packed important stuff with mom.

Mom also wanted to travel to Sydney as her childhood friends were staying in that city. Dad agreed to this and he told us that we will be there for three months so we are going to explore every city of Australia to encounter beautiful spots.

When we reached our destination we believed in collecting family moments and we did the same while traveling. In Australia we visited different places, had pictures of museums, national parks, enjoyed shopping in big malls and stayed in a luxury hotel where we enjoyed the facilities. We had a memorable journey and a joyous trip.
