

ICSE Class 7th Students Made Simple by Extramarks

Science is meticulous, requiring a sense of focus and discipline. Adhering to the inquiry, embracing the scientific method, understanding how a hypothesis works, and how to approach it when the answer is not directly evident, the noting of data and the fine-tuning of representing data are all very challenging skills to impart into students. Inadequate teacher compensation and professional development to attract, prepare and retain high-quality teachers, some of the major problems faced by students learning Biology include the insufficient number of qualified teachers who will teach students without boring them with all the bookish knowledge. Almost all science students in these schools offer chemistry because of their vital role as one of the basic science subjects relevant to the science profession. In spite of students' interest and reactions towards [ICSE Class 7 Biology Syllabus](#), they perform poorly in Biology in their final examination as a result of the way they were been taught by their teacher. The questions that come to mind are what are the problems of teaching ICSE Class 7 Biology Syllabus in schools? Could it be as a result of a lack of laboratories in schools, lack of laboratory attendance, or lack of qualified personnel, or inability of the teachers to use the laboratory equipment in teaching? Biology is one of the most fun subjects if taught properly. Traditional and class-room teaching does not make students understand a subject like Chemistry practically. Students should realize that Biology is so much more than vacancies etc, it is actually the most scoring subject if dealt with properly and with proper teaching ways. Schools generally lack the opportunities and students generally do not have the confidence to ask about the little doubts they face. All these problems are tackled and can be overcome by Extramarks.
