Customer testimonials and reviews

Chinese Group values every business relationship with its customers. Here's what they had to say about us.

For any company, China is the largest market. Open a milk tea shop and you can have a kilometer long queue of customers waiting to be served. For this reason, I decided to give Chinese people access to my free and paid poster templates in Android and iOS. Through a friend's recommendation, I asked Chinese Group to build a full Chinese version of my app, and it worked great. I now have a million new users, and my app has proven to be very useful to everyone. Thank you, Chinese Group!

Glenn Moore, New York, USA

I passed the entrance exam to a prestigious school in Boston, but I was running out of time to obtain a student visa. To make matters worse, the translator made a mistake in translating my birth certificate and it didn't match my other documents. Chinese Group came to the rescue and did an amazing job. They did an excellent job translating and notarizing my documents in record time. I was able to submit documents and secure a visa. I'm now enrolled and settled in my apartment while waiting for the semester to start.
