

Tornado90000 The Smart Charger Is Here At Automax Tool ,shop Now

Tornado90000

90A Stable Power Supply & Smart Charger 12V/24V

[The Tornado90000](#) is TOPDON's newest cutting-edge smart charger, made for professional and commercial users. This device is suitable for all types of 12V and 24V lead-acid and lithium batteries, with a wide battery capacity range from 5 to 90 amps.

The Tornado90000 features a current/voltage edit function and supplies users with battery protection through its 9-step smart charging method and 6 charging modes. SUPPLY Mode provides a stable DC output and can be used as a programming voltage stabilizer.

Features

- 6 Charging Modes, Adjustable Current and Voltage
- Large Power Bank
- ECU Programming Voltage Stabilizer
- Unmatched Compatibility
- 9-Step Smart Charging
- Your Battery's Bodyguard
- Dual Temperature Monitoring for Safety in Every Element

[6 Charging Modes, Adjustable Current and Voltage:](#)

The Tornado90000 offers 6 programmable charging modes to ensure the right current and voltage output at all times. This device also features an electrical current edit and voltage edit function. The voltage adjustment ranges from 11-15.8V, and 22-31.6V. Corresponding currents are 5-90A and 5-45A.

Large Power Bank:

The Tornado90000 can act as a stable power supply for various automotive appliances such as tire inflators, car fridges, and more.

90A MAX POWER SUPPLY

Wide battery capacity range from 5A - 90A
ECU Programming Voltage Stabilizer

ECU Programming Voltage Stabilizer:

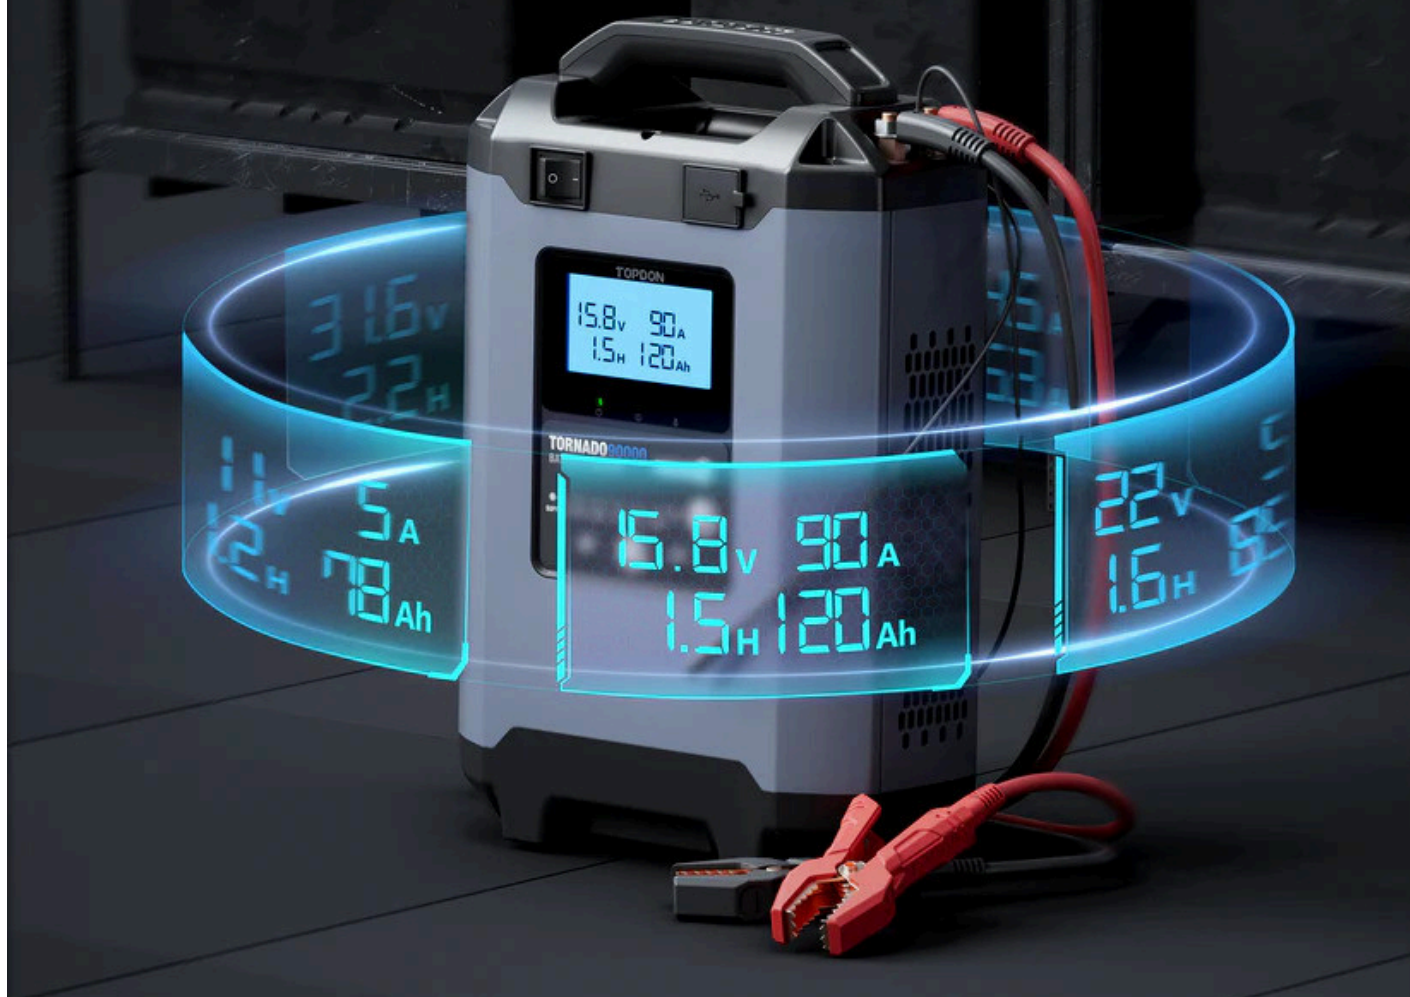

ECU programming voltage stabilizers can match multiple brands and types of automotive systems.

Unmatched Compatibility:

Charge a wide variety of 12V and 24V batteries, such as AGM, WET, GEL, MF, CAL, EFB, and Lithium batteries. The Tornado90000 is suitable for batteries between 5 and 90 amps.

ENABLES YOU TO DIY

Voltage ranges from 11-15.8V & 22-31.6V
Currents ranges from 5-90A and 5-45A

9-Step Smart Charging:

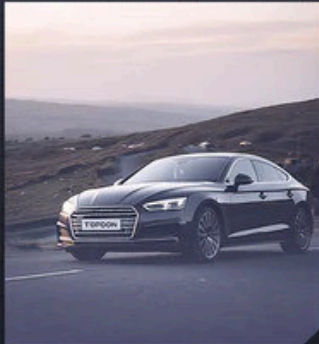

Its "9-step smart charging" provides strong protection to the battery and the automatic charging and disconnection system eliminates any risk of overcharging.

[Your Battery's Bodyguard:](#)

With the Tornado90000 you are protected against reverse polarities, reverse charges, short circuits, overheating, and over-voltages.

FOR ALL 12/24V LEAD-ACID BATTERY

Dual Temperature Monitoring for Safety in Every Element:

The Tornado90000 features a built-in temperature sensor constantly protecting the device being charged. It has a built-in temperature sensor to detect the temperature of the device at all times and an external temperature sensing probe to monitor and protect the device being charged.

THERMAL COMPENSATION

Optimal Performance in Any Climate
