

Revit Model

An efficient architectural design and documentation tool from Autodesk is Revit. The construction of fundamental parametric families like furniture and equipment is one benefit of using [Revit](#) Libraries Services. The graphical quality of 3D BIM models can also be enhanced.

Architectural

- Doors
- Windows
- Caseworks
- Furniture
- Railing

Mechanical

- HVAC
- Pipe Valves
- Strainer Pipe
- Hangers

HVAC

- Fan Coil Unit
- AHU
- Damper
- Diffuser
- Grills
- Registers

Fire Fighting

- Sprinklers
- Valves and Fittings
- Fire extinguisher
- Cabinet

Plumbing

- Pump and Valves
- Urinal
- Wash Basin
- Water Closet

Structural

- Column with cables
- connections
- Mounting Plate
- Base Plate
- Stiffener
- Gusset Plate

Family Creation using Revit
