

# Outstanding Android RPG Games Available Today

Cell phones have gotten fancier through the years. First the developers added cameras, the world wide web and after this most smart phones are now able to play video games. They aren't budget games like Snake or Tetris either. Smartphone's have the ability to play video games who have the identical quality that portable gaming devices produce.

Probably the most recent mobile phones released is Sony's Xperia Play. Xperia Play has become dubbed as the world's first PlayStation certified phone. It's not only a cell phone, but it can be used as a portable gaming device. The controls have become similar Sony's other products including the PSP as well as the PS3 controller in order to name just a few.

And that means you can finally play PlayStation-style game titles with the ease a true control scheme. Nothing is more uncomfortable than winning contests on your phone while using horrible numbered keypad. Probably the most pleasant benefit of the Xperia Play is some PlayStation Classic games will likely be heading their way on the system quickly.

Although there haven't been any RPG PlayStation games available yet, it's more than likely that Square Enix will release several of its Final Fantasy games to the platform. Final Fantasy VII, VIII and IX have all been ported to Sony's PlayStation Network. Thinking about putting Final Fantasy VII (typically the most popular RPG ever made) around the Xperia Play can help

you Sony have a their hands on industry dominated mostly by Apple.

Zenonia 2 can be an old-school 16-Japanese RPG similar to the older Final Fantasy games from your early '90s. The 2D graphics are cute and also the game itself is the best RPGs positioned on Android phones. Even though game is heavily inspired by Japanese RPGs, that it is stated in Korea. Nevertheless, I know it's really a game RPG fans will love playing.

Gurk is often a game that'll be liked from gamers who grew up in the '80s. It's an old-school style game which reaches just a mere 100KB to download. Despite Gurk's earliest pens type of graphics, it is in color plus a blast to experience. You'll find 24 levels in all and a total of 23 monsters so that you can find and kill. Gurk will not be a game well-liked by modern gamers, though if you spent my youth playing the initial Nintendo nintendo ds lite, you are going to really like its old-school kind of gameplay.

Another RPG game available on Android phones is Dungeon Defenders: First Wave. The sport is definitely an online cooperative action-RPG much like Torchlight and Baldur's Gate. The sport is provided for free to download for many phones. The graphics have been in full 3D and appears stunning to get a game that amounted to nothing to download. As much as four players can play together online. It could be cliched and borrows elements from other RPG games, however its visuals and multiplayer is what makes it quite fun.
