Juno Email on the Web

Compared to setup on other devices, it's simple enough to set up **Juno email on the web**. You should not have any special technical skills or anything outside the ordinary to open your account. It cannot be as simple or easy to open as many other emails, it is not difficult either. Here are the procedures followed:

Step 1: The first thing you would want to naturally do is to head to Juno's website.

Step 2: On the right-hand side you will see the notification: Not a Juno Member? Under this, click on "… to sign up now, Click Here"

Step 3: You will be taken to a page with all the services offered by Juno including its Premium Packages. Simply look for Free Services and then click on Free Email.

Step 4: The next thing to simply do is to click on the Order Now button which will lead you to a page to enter your information.

Step 5: Before entering your points of interest, the fact is that you can be in an ideal situation with free service, so basically enter your original subtle elements and the choice of ID is off chance despite you need to use the bundle update you can choose on to use. You are doing with it through, compulsively submit and tap on the hold.

Step 6: In view of presenting your data, which is all right, you will be invited to a small Juno Message Center box. On this, the tap is moving forward and you will be taken to your ***juno com email on the web*** account. Basically keep on tap and you will be taken to your email where you will now be able to send and receive messages effortlessly.
