

# Download the Backpacker App to View Updated Travel Rules

The image features a promotional graphic for the 'berbs' app. At the top, the 'berbs' logo is displayed in a light blue, rounded font. Below it, a blue speech bubble with a white airplane icon contains the text 'Where can I find information on Mexico'. To the left, a large smartphone screen displays the app's 'Country Details' for the United Kingdom. The screen shows a weather widget for Mexico with a temperature of 28°C, sunrise and sunset times, and a 15-day forecast. To the right of the phone, a man with a beard and glasses, wearing a straw hat and a plaid shirt, stands with one foot on an orange rolling suitcase, pointing upwards with his right hand.

- Berbe is one of the best mobile apps that let you view travel rules information including travel restrictions and ideas for new countries. Since 2020 travel rules are constantly changing from country to country to keep people safe from COVID-19 which makes it difficult for people to travel from one county to another.
- So for making it simple, our team has to lead to the development of an innovative technology i.e. Berbe also called the [Backpacker app](#) that provides people with updated travel rules with documents. Download it today for Android or IOS.
