

EUROPE DISINFECTANT SPRAYS AND WIPES MARKET 2019-2028

MARKET OUTLOOK

Triton Market Research has estimated the Europe disinfectant sprays and wipes market to show an upward trend in terms of revenue and grow rapidly with a CAGR of 6.01% in the forecasting years 2019-2028. The United Kingdom, Germany, Italy, France, Russia, Spain, and Rest of Europe countries together form the market in this region.

Italy is a nation that is one of the worst-hit, globally, by the COVID-19 pandemic. The country's government has taken several measures to combat the disease from spreading. Disinfectant wipes and sprays have emerged as an effective solution to obliterate microorganisms from surfaces completely, thereby helping control the infection spread. Manufacturers in the country are therefore invested in producing top-quality disinfectant products. This factor has favored the growth of the disinfectant sprays and wipes market in the country.

In the United Kingdom, the rising public awareness regarding the importance of cleanliness and disinfection has enhanced the demand for disinfectant wipes and sprays. The growing number of Coronavirus cases in the country has compelled vendors to produce technologically advanced disinfectant products to curb the spread of the disease. These products have witnessed a huge demand from the healthcare and residential segments, owing to their property of killing pathogens effectively. These factors are driving the growth of the UK's disinfectant sprays and wipes market.

COMPETITIVE OUTLOOK

The competitive players in this market are Stryker, Cleanwell, 3M Company, Procter & Gamble (P&G), Whiteley Corporation, Reckitt Benckiser Group plc, Cantel Medical, and Diamond Wipes International Inc.
