

Movie4k Proxy and Mirror sites

[Movie4k](#) is one of the popular free movie streaming sites. Earlier it was known as Movie2k. All the latest and old movies and TV series are available for free on **Movie4k**.

What is Movie4k?

Movie4k is an illegal video directory for movies and TV shows which primarily consists of leaked copyrighted content. It is mainly a user-contributed website. Previously it was known as Movie2k.to, which was shut down in May 2013 by the Motion Picture Association of America (MPAA) because of copyright infringement.

However, shortly after its shut down, the Movie4k.to website was started. **Movie4k.to** is also an illegal website and is banned in many countries. European countries, however, support this site. Germany holds one of the top spots and **Movie4k.to** comes under the Top 20 websites of Germany. In terms of Global ranking, it holds the 202nd spot.

You can access this site using a VPN, or you can access **Movie4k proxy** sites. There are many **Movie4k proxy and mirror sites** that you can access if the main Movie4k.to does not work.
