The Digital Literature Review is a tutorial journal edited, produced, and published by undergraduate students partnered with the English Department at Ball State University. Our purpose is to showcase the valuable contributions of hardworking, inventive students from all over the world. Two authors (.B., S.S.) independently extracted the following information from the included systematic reviews using a type developed by the authors for this review: study ID (first author's last identify and publication year), study traits (population, intervention, comparator, outcome, study design) and limitations of the review. McKenzie, J. E. & Brennan, S. E. Overviews of systematic reviews: nice promise, greater challenge.

A five-course overview of the most recent digital advertising and marketing expertise, taught by industry specialists. The proliferation of digital expertise offers businesses a diverse new set of instruments to succeed in, have interaction, monitor, and respond to consumers to an unprecedented diploma. In addition to the search of electronic databases, we did ahead and backward citation searches of included systematic reviews, and hand-searched the Journal of Medical Internet Analysis (JMIR) from inception.

Objectives
