Free Masks Coming: Both the federal and state governments have recently announced the intention to distribute free masks. Here's what we know so far:

- President Biden [announced](#) last week that the federal government will be providing high-quality masks for free. This [article](#) has more details, including that masks are likely to be distributed through pharmacies and community health centers.
- On January 5th, [Governor Inslee announced](#) that Washington State will “release about 10 million masks... for distribution into local communities, including K-12 schools, in the coming weeks. Local and state emergency management distribution channels will be used, as well as local health departments and our K-12 infrastructure...”

Both efforts are likely to be widely covered in the media, so stay tuned. In the meantime, Public Health – Seattle & King County provides this [advice about high-quality masks](#). Looking for a credible place to buy N95 and KN95 masks? Check out the nonprofit [Project N95](#).

MASK UPGRADE
Consider Fit, Filtration, & Comfort

Mask Type	Protection Level
 N95	Highest level of protection Filters 95% of particles
 KF94/KN95 or Surgical	More protection than disposable or cloth
 Surgical or Disposable	More protection than cloth
 Cloth	Better than no mask

"KEEP YOUR MASK GAME STRONG!"

Biden administration to give out 400 million free N95 masks

<https://www.cbsnews.com/news/n95-masks-free-400-million-biden-administration-covid->

[response/](#)

The free masks will be made available to the public at thousands of local pharmacies and community health centers nationwide starting late next week.

Shipments of the free masks will come out of the country's Strategic National Stockpile, which federal officials have cited as a key part of their efforts to shore up domestic mask makers.

The coronavirus is airborne. Very airborne.

Even if you don't see anyone—doesn't mean the aerosols aren't in the air.

You need high quality N95 / KN95 / KF94 / FFP2/ FFP3 masks.

Please ventilate, get HEPA filters, get upper room UV.
