

GUCCI Première eau de parfum spray - Perfume for Women

Just as a leading lady graces the red carpet with her couture Gucci gown, so every woman deserves her Gucci Première moment. She is a modern icon.

The fragrance opens with the luxury and exuberance of a vintage champagne. A burst of effervescent bergamot fused with feminine and celebratory orange blossom conveys the heady excitement of the red carpet entrance. At the scent's core nestle the brilliant white flowers of an intense bouquet, laced with a magnetically sensual modern musk. Shop Now: <https://beautebar.ca/collections/women-perfume/pro>
