

# Scrum Trainer | Marco Toscano

Marco Toscano has worked in software development and/or product management prior to becoming a [scrum trainer](#). He's a Scrum master with a wealth of knowledge in the methodology's application, leadership, teaching, and coaching. In the workplace, he has been a servant-leader. He is a member of both local agile and software development organisations as well as larger global agile and Scrum initiatives. For more information, go to his website.
