

PATAGONIA QUARTZITE

PATAGONIA QUARTZITE

worktops.com

Description

Patagonia Quartzite is one of nature's most distinctive and evocative stones. A stone distinguished by its strength and hardness, as well as graphic effects of exceptional beauty. Patagonia Quartzite Slabs are sourced from Brazil, which has some of the world's most beautiful quartzites. It's a statement stone, bold, full of personality, and extremely versatile; it can also be backlit through some sections to reveal its crystalline nature.
