

Protecting Crops with NACL Industries' Advanced Fungicides|NACL

Discover NACL Industries' range of advanced fungicides designed to combat plant diseases effectively. Trusted by farmers across India. <https://naclind.com>

The advertisement features a top border of fresh red tomatoes. In the upper right corner, the NAGARJUNA NACL logo is displayed. The central focus is the headline "Unprecedented Tomato Harvest!" in large, bold blue letters. To the left, a green curved banner contains four circular icons: a tomato, a hand holding a plant, a clock, and a bar chart. Each icon is paired with a benefit of the fungicide. On the right side, a white plastic bottle of Atonik fungicide with a green cap is shown. The bottle label includes the product name "Atonik" and the NACL Industries logo. At the bottom left, a dark green banner provides application instructions. The bottom of the ad shows a close-up of a tomato plant with white flowers. The website "naclind.com" is printed in the bottom right corner.

Unprecedented Tomato Harvest!

- Minimizes Flower & Fruit Drop –**
Ensures better retention
- Boosts Fruit Setting –**
Promotes healthier growth
- Extends Shelf Life –** Keeps
fruits fresher for longer
