

# Surgical Wound Closure Devices | Wound Closure Devices

We are pleased to introduce microMend WIDE, the latest addition to the unique microMend product line. This new device features the same Microstaples design as our other microMend products, but it is three times wider making it much faster and easier to close longer incisions such as those associated with orthopedics, obstetrics, and other specialty surgeries. Shop now at <https://www.micromendskinclosure.com/medical-products.html>
