

## #GameJet is Ready to Set New Benchmarks with the Upcoming Gaming Releases!

Gaming is a booming new business and startup with fresh, state of art and technically built games that are regularly being released. Now such gaming strategies have become so popular that it hits every sector of crypto markets and have raised the ranks and expectations in quite a few years.

Not only gaming platforms but many crypto tokens are also giving numerous opportunities for their holders to freely play games and earn tokens/rewards. Following the trend and talks, a new project- GameJet took advantage of this granted chance to efficiently entertain its holders.

The developers at GameJet have carefully designed challenges, tournaments, competitive levels, and a unique theme for every game target. Also, there is an addition of a newly born “JET token” in the booming crypto entertainment industry.

GameJet tokens and protocols are used as a process to launch and initiate a final development rollout that will definitely head to the moon with its clearly sketched roadmap. The GameJet team intends to seek, design, plan, and deploy a new Decentralized Financing platform application that will eventually fix the crypto-related volatility problems.

## **GameJet Tokens**

There are multiple tokens and coins skyrocketing in terms of prices, usage, and reputation, however, every single digital asset is associated with some shortfalls. Especially to consider the risk exposure to the instant loss because of volatility and liquidity issues. Also, nowadays, newcomers are trapped in the promises of huge returns and staking rewards. GameJet tokens are wholly dedicated towards the community advanced innumerable services.

GameJet holder's can access the governance regularity bodies, thus allowing exchange for the investors to the contributor. The team at GameJet facilitates delivering an essential solution ahead of time to sort out the pricing volatility issues and affecting crypto communities globally.

This digital token is intentionally created to transform the fallen mindset of the token holders to completely endorse as a game-changer of the century. They are looking ahead to equally distribute the ambitious power among the holders sharing rewards and bonuses.

GameJet token is inheriting a static reward system where the network of problems can be addressed. This asset will enhance the trade with a total supply of 1 billion JET tokens. Its static mechanism will revolutionize the market and ecosystem with upcoming releases.

Various inspiring feature of this digital asset seems fascinating for the token holders who have hope in a bright future to boom.

GameJet token implements a token burn strategy offering benefits to the token holders to evenly reap and distribute the shares. A regulated token burning will benefit the community and holders by a regular update about the static platform and upcoming updates on the same.

## **Upcoming Releases**

The team of experts is excited to expand and target their mission with a redefined approach. They are providing gamers with an advanced user experience that incorporate cutting-edge gaming technology.

GameJet has been exploring the technology and Defi protocols behind the scenes for quite a time now to thoroughly understand the best use of such technologies to benefit the massive community.

GameJet, a creator of the blockchain gaming portal is developing and featuring a curated selection of competitive games.

The first presale on GameJet is all set to commence on the second week of September 2021. The presale and public sale at this platform hold 40% of the total token value and will be distributed in the upcoming event.

GameJet YouTube Bounty is live since 28 August 2021 and will end by 10 September 2021 distributing \$2000 worth of TRX and \$JET token rewards.

The YouTubers need to perform simple tasks to make influential and descriptive videos for the GameJet project and help them spread the positive word.

Few before-mentioned topics are:

1. Project review
2. Presale on 10 September 2021
3. Token prediction to reach \$5 in 1 month
4. Token is created for gaming and entertainment purpose.

GameJet is also running its Registration and Referral Reward Program. In this bounty event, 50 JET tokens are raised for every registration and 50 JET tokens are raised for every referral and rewards will be distributed accordingly.

Out of 1 billion JET token supply, 9% tokens cover marketing purposes and 2.5% tokens will cover pre-listing bounty programs.
