

leh ladakh

Aptly known as ‘**the Land of high Passes**’ **Ladakh** is one of the most unique and enchanting regions of India. This sparsely populated, vast landscape is a dream destination for adventure lovers worldwide. **The [Leh Ladakh](#) Bike Trip** is an unprecedented chance to experience the charm of the region. As the expedition is two-week long, we will have ample time to explore this vast cold desert at a slow and relaxing pace. We will start our **Leh Ladakh Bike Tour Package from Delhi**, and those coming from outside the city, are required to reach here 24 hours prior to the departure time. We have an array of fixed departure dates for you to pick as an individual. If you are a group of 8 persons or more, we can also arrange for a customized bike tour package. This itinerary has been well-researched and carefully formulated after looking back at several of our trips in the past.
